

MEMORANDUM CIRCULAR  
NO. 05-78

SUBJECT : Authorizing Domestic Public Carriers to Extend their Radio Communications Facilities to Foreign-owned or Controlled Firms doing Business in the Philippines.

It has been observed that there are foreign-owned or controlled firms doing business in the Philippines applying for a license to operate and maintain radio stations but whose applications cannot be approved due to the limitation of available frequencies or that they cannot meet the security clearance requirement of the Government. In line with the national economic development program and the call of the Prime Minister for investment opportunities in the country, this Bureau has to do something in order that said firms could avail themselves of the use of radio communication facilities to promote their business interests.

Domestic public carriers are hereby authorized to extend to said firms the use of their radio communication facilities under such terms and conditions mutually agreeable to both of them, subject to the approval of this Bureau and the regulations of the Board of Communications (BOC).

It is understood that the operation of such stations shall be in accordance with existing radio rules and regulations and under the direct and immediately control of the domestic carrier concerned.

This Circular shall take effect immediately and it supersedes or amends any circular, order or part thereof which is inconsistent herewith.

CEFERINO S. CARREON  
Acting Director
