

MEMORANDUM CIRCULAR
NO. 07-05-87

**SUBJECT: PROCEDURE AND GUIDELINES GOVERNING APPLICATIONS
FOR MODIFICATION OF ANY EXISTING RADIO STATION
LICENSE/PERMIT IN THE FIXED/LAND MOBILE SERVICE.**

In furtherance to the effort of the government to institute reforms in the service and in order that the processing of applications for modification of any existing radio station license/permit shall not be unduly delayed, the following procedures and guidelines are hereby promulgates:

1. No construction permit shall be required for the modification of any existing radio station license/permit for change of:
 - a. location within 500 meters away from the original location;
 - b. vehicle to any other authorized company vehicle;
 - c. hours of operation, bandwidth and emission, power;
 - d. points of communications/service area;
 - e. change of frequency if replacement frequency is existing to applicant
 - f. change of equipment covered by necessary permit to purchase/possess; and
 - g. change of time
2. A modified radio station license shall be issued only after inspection/verification was made by a duly authorized representative of the Commission.
3. The corresponding construction permit fee shall be charge in addition to the usual modification fee.

This Circular shall take effect immediately, and any order, circular, instruction or memorandum or any part thereof which is in consistent herewith is deemed amended and/or superseded accordingly.

JOSE LUIS A. ALCUAZ
Commissioner
